RESIDENTIAL SERVICES

That's why professional residential cleaning services from ServiceMaster® Clean are designed to fit your needs and personal schedule.

For more than 50 years, ServiceMaster® Clean has been providing [residential cleaning services](#) for homeowners, renters and anyone who needs a bit of help cutting through the grime to find a home's true shine.

Carpet Cleaning

As a professional residential cleaning service, we combine our expertise with the equipment needed to get the job done right the first time. Your home's carpets absorb odors and dirt daily and an annual or semi-annual cleaning can refresh and brighten your living space. Our carpet cleaning services includes a preliminary inspection plus pretreatment of all spots and stains. The ServiceMaster Clean process features a clear, hot water rinse as well as post-treatment of any remaining stains and grooming for the best drying and finished look.

Hard Surface Floor Cleaning

Because hardwood and tile floors need just as much TLC as your carpets, we offer high-quality hard surface floor cleaning for your home. Give us your marble, hardwood, ceramic tile or vinyl floors and we'll make sure they are beautifully cleaned to the highest quality.

Did you know that our specially formulated wood care products produce a superior clean and shine while offering an enhanced slip resistance? Plus, you'll need fewer varnish and stain strippings to maintain your wood floor's natural beauty.

Upholstery Cleaning

Upholstered furnishings harboring food and pet odors from daily usage can mean your family room furniture often suffers from spots and stains. Vacuuming helps keep the dust and some dirt at bay, but a good upholstery cleaning is needed every six to twelve months. Call on ServiceMaster Clean whenever your furniture needs a refresher. Our top team members will leave your upholstered furnishings looking great, smelling fresh and feeling as comfortable as ever.

Tile and Grout Cleaning

From ceramic to porcelain tile, a home's tile and grout need regular cleaning to keep it looking as beautiful as the day it was installed. Grout is a porous material and easily accumulates dirt as well as stains. In rooms with high humidity, it can develop bacteria that causes discolorations. A thorough tile and grout cleaning from a professional cleaning service eliminates these problems and saves you the time and hassle. Let ServiceMaster Clean do the work and you can sit back and enjoy the benefits.

The residential cleaning services we offer are designed specifically to make your life easier. Additionally, we offer green cleaning products free of harmful contaminants such as VOCs. Schedule an appointment to have your carpets cleaned before that next big family party or set a time to talk about our other easy home cleaning services.
